

## APRIL COURT LASTED 4 DAYS

### VERDICT AGAINST HANOVER & McSHERRYSTOWN WATER CO.

**Prisoners Sentenced. Two to Penitentiary. Arthur Clay and Ollie Carter.**

The business of the April term of court was concluded on Thursday morning before 11 o'clock, when Judge Sadler left for home. The discharge of his official duties gave general satisfaction. Courteous, patient and prompt the business was speedily dispatched.

The trial list of civil cases contained three cases. The first one, H. A. Myers vs. J. Mervin Reinbeck, was settled. The second, Rebecca D. Johnson vs. Charles Clauser was continued pending the conclusion of case tried recently between same parties. The third case was the only civil case tried. Levi M. Miller vs. Hanover and McSherrystown Water Co. Geo. J. Bender, Esq., represented the plaintiff and H. C. Niles, Esq., of York, Chas. E. Ebbert, of Hanover, and Chas. S. Duncan, Esq., for defendant.

Mr. Miller owns a farm in the vicinity of the pumping station of the Water Company, along Conewago Creek, near Bell's Station. It was alleged on the part of the plaintiff that the erection of the water plant has drawn from the buildings on his farm the water supply necessary for the house and stock hence he claimed damages for the taking of this supply of water. The witnesses estimated the damage done by this diversion of water at \$5000 and the jury rendered a verdict in favor of plaintiff for \$1900.

Mack G. Clay was called up on Wednesday morning on complaint of his wife, for failure to support her and four children. The order for support was suspended until May 27th the defendant entering into a recognizance to appear at that time, meanwhile to be under charge of Constable Shaeffer. It appearing that the trouble was occasioned largely by the defendant's drinking habit, Judge Sadler required him to make an affidavit that he would not use intoxicating liquor for one year and warned him that if he violates his oath, he would be prosecuted for perjury. This was striking at the root of the trouble.

Charles Powell, colored, on surety of the peace, instituted by John Smith, for threats on March 10th, was required to enter into recognizance in \$200, with sufficient surety to keep the peace. The woman, Cora Tonsil, seemed to be mixed up in the dispute. The same John Smith, upon the charge of desertion, was required to enter into recognizance in \$200, to appear May 27th and to pay \$2.50 per week, for support of his little children, who were in court.

Bench warrants were ordered for the arrest of W. M. Rollins, charged with forgery by J. H. Fagan, prosecutor, for W. C. Riffert and E. E. Heindel, charged with false pretense, Noah W. Sell, prosecutor, and for Charles Moose, charged with larceny as bailee, James E. Welkert prosecutor.

Arthur Clay, guilty of the burglary at Reading depot, was sentenced to the penitentiary for a term of not less than five years, nor more than fifteen.

Ollie Carter was sentenced to the penitentiary for larceny of whiskey for a period of not less than eighteen months, nor more than three years. His trouble was referable, as the judge said to his association with lewd women.

James Murphy, tramp, etc., was ordered to enter into his own recognizance to keep the peace, for one year and to quit his drinking.

Lorrie Touley, tramp and beggar, said to be insolent and threatening women in their homes, was ordered to enter his own recognizance in \$200, to keep the peace for one year, with the understanding as directed by Judge Sadler, that he was not to be in the county after forty-eight hours from the time of the sentence.

In the Orphans' Court, on petition of the Guardian Trust Company of York, guardian of Naomi Hostetter, minor child of Benjamin F. Hostetter, late of Hanover, deceased, a private sale was ordered, of the minor's undivided one-fourth interest in a farm of 122 acres, and 5 acres of woodland in Union township to Abraham F. John E. and Ezra F. Hostetter, the owners of the other three-fourths interest, for \$2500, and for use discharge of the dower charge, for the sum of \$1250, the Guardian Trust Co. being trustee of the dower fund.

The bond of Gettysburg Water Co. in \$1000 was approved for the purpose of taking under right of eminent domain land needed by Co. in their improvements, owned by Wm. M. Bigham and Mary Jane Bigham.

L. M. Gardner, Jr., was appointed Burgess of York Springs to fill the unexpired term of Geo. H. Day.

On petition of C. E. Stahl, committee of C. C. Clapsaddle, a rule was awarded on James W. Leister, Adm'r. of Anos Leister, to show cause why confirmation of sale should not be set aside.

The Court directed the District Attorney to notify the supervisors of the townships which were reported as having roads in bad condition.

Calvin Gilbert, Daniel A. Skelly and S. M. Miller, all of Gettysburg, were appointed inspectors of bridge over Openum Creek near Bendersville.

Exceptions to the report of J. Donald Swope, Esq., auditor in estate of Catherine Hartman, late of New Oxford, by reason of illness of Judge Swope were returned before Judge Sadler. Decision was reserved.

J. L. Hill, Esq., was appointed commissioner in divorce in case of Amanda C. Carbaugh vs. H. L. Carbaugh.

In the assigned estate of S. L. Johns and Emma C. Johns, in which J. L. Williams, Esq., is assignee, exemption lists for both were filed and confirmed and to be confirmed absolute unless exceptions are filed within 20 days.

Distribution of proceeds of sheriff's sale of Hall Thompson was confirmed nisi.

### Memorial Amphitheatre.

If there is one need more than any other facing this community it is for a great audience room capable of holding several thousand people, a place in which Memorial Day services, veterans' reunions, meetings and conventions of all kinds could be held, and it is almost imperative that something of the kind be provided for 1913, for bad weather and no amphitheatre could make a failure of the Fiftieth Anniversary Celebration if a four-day affair. The coming of the State highways here and the great Lincoln Way will develop more and more this need.

Congressman D. F. Lefean has offered in Congress the following bill, which if the Congress passes would give Gettysburg what it needs, and when States and Nation have made a great military park, it is entirely appropriate to provide such an amphitheatre for the use of the thousands attracted here. The bill offered by Mr. Lefean is as follows:

A bill for the erection of a memorial amphitheatre on the Gettysburg National Cemetery, Gettysburg, Pennsylvania.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

Section 1. That a commission, consisting of the Secretary of War, the Secretary of the Treasury, one member of the Grand Army of the Republic, to be designated by the commander-in-chief of that organization, and three members each from the Senate and the House of Representatives of the United States, to be appointed by the Vice President and Speaker of the House, respectively, be, and is hereby created, which shall cause plans and estimates to be prepared for a memorial amphitheatre on the National Cemetery, at Gettysburg, Pennsylvania; and report the estimate cost thereof to Congress.

And for the expense of said commission a sum of not to exceed five thousand dollars is hereby appropriated, out of any money in the treasury not otherwise appropriated, to be expended on vouchers approved by the Chairman of said commission.

### Miss Carbaugh at Home.

Miss Bernice Carbaugh returned last week to her home near Iron Springs from the York Hospital, where she had been since she was shot in March. It was on evening of March 20, James Hurley shot her in the head, four times and then turned the revolver on himself and ended his life. Miss Carbaugh seems to have fully recovered from the wounds though her life hung in the balance for several days.

### Gilbert Pays Penalty.

Leonidas W. Gilbert last Thursday paid the penalty for the murder last June of Daniel K. Miller, at one time proprietor of Hotel Gettysburg this place. Gilbert, waiter at the Dauphin Hotel, shot and killed Miller after latter had discharged him. He had been sentenced to hang on March 23 but was respited pending a hearing before the Board of Pardons. The Board refused to intervene on plea of drunkenness. Gilbert went to gallows singing "I'm Going Home to Die no More," prisoners in jail joining in the chorus. Sixteen minutes after the drop fell he was pronounced dead.

### Wedding Bells Ring Merrily.

MAYER-SMITH.—Katherine Dorothy Smith, daughter of Mr. and Mrs. Horace Smith of York, was married last Thursday evening to Lewis C. Mayer, vice president and engineer of the York Railways Company. The wedding took place at the residence of the bride's parents, ceremony by Rev. Clinton E. Walter, D.D., pastor of St. Paul's Evangelical Lutheran Church. The room in which the ceremony took place was artistically decorated with palms, daisies, hydrangeas and a beautiful centerpiece of pink roses and lilies of the valley. The bride wore a costume of embroidered cream, tulle, crepe and chiffon, trimmed in duchess and point lace. She also wore a bridal veil with orange blossoms, a diamond bar pin, set in platinum, and carried a bouquet of lilies of the valley. The bride was attended by Miss Louise Spahr as maid of honor, and Elizabeth Mayer, United States navy, a brother of the groom, was best man. Only a limited number of invited guests from York and nearby cities and members of the immediate family were present. The bride is a niece of Mrs. Wm. A. Martin of this place. The bride was the recipient of many beautiful and costly presents. After the ceremony a reception was served in the dining room.

COLLINS-HOLLEBAUGH.—Miss Lillian Ruby Hollebaugh, daughter of Mr. and Mrs. W. A. Hollebaugh of Hanover, and Mr. Collin Collins, formerly a midshipman of United States Naval Academy, at Annapolis, Md., were married at York Tuesday, April 16th, by the Rev. Walker of the Lutheran Church. The bride is the youngest daughter of Manager Hollebaugh of the New Colonial Theatre, Hanover, formerly a resident of Gettysburg, and the groom the son of Commodore J. B. Collins of the United States Naval Academy, retired.

BELL-STONER.—Grace M. Stoner, daughter of Dr. and Mrs. Joseph A. Stoner of York, became the wife of Albert E. Bell, last Thursday evening at St. Luke's Evangelical Lutheran Church, East Maple street. The ceremony was performed by Rev. Albert Bell, pastor of the church and father of the groom. The chancel altar was prettily decorated with cherry blossoms, palms and a variety of potted plants. Lohengrin's wedding march was played by Miss Katherine Bell, church organist and sister of the groom, as the bride and groom, attended only by a few invited friends and the members of the families, entered the church auditorium. The bride wore a cream lace robe over cream satin and carried a bouquet of bridal roses and orchids. After a wedding trip they will reside at Port Royal, Juniata county where Mr. Bell is principal of the High School. Mr. Bell is a graduate of Pennsylvania College, this place, class of 1910.

ZACHARIAS-EYSTER.—Richard M. Zacharias and Miss Nellie S. Eyster, both of Emmitsburg, were married in the Lutheran Church at 9 a. m., Wed., April 24, 1912, by Rev. Chas. Reinwald, D.D. The attendants were Miss Grace Rowe and Mr. Herbert Gingell, of Emmitsburg. The groom is proprietor of confectionery store in Emmitsburg.

MUMBERT-ZARTMAN.—On April 21, Rev. M. R. Roth at Hanover, married Calvin Mumbert and Miss Rose Zartman, both of Hanover. They will move to farm of Clinton N. Myers along the Conewago Creek in this county, the groom becoming manager of a large poultry plant of Mr. Myers.

HAGERMAN-GALLAGHER.—Frank Hagerman, son of Mrs. Emma J. Hagerman of McSherrystown, and Miss Gertrude Gallagher, daughter of Mr. and Mrs. Jacob Gallagher of Edgemoor, were married in St. Joseph's Catholic Church, Hanover, last Thursday evening at 8 o'clock, by Rev. A. Brandt. The groom is a cigarmaker employed in McSherrystown, and the bride has been making her home with her brother, Charles Gallagher in Hanover.

MULLEN-TOPPER.—Norbert V. Mullen and Miss Mary Agatha Topper, both of Baltimore, were married in St. Gregory's Catholic Church on Tuesday of last week. The groom is a machinist in W. M. R. R. shops at Hagerstown and bride is a daughter of John J. Topper of Baltimore, well known in Emmitsburg and southern part of this county.

Many will remember John Bender the millman. He was a man esteemed for those old fashioned virtues of honesty, truthfulness, sincerity and uprightness, having a name that is the best legacy a man can leave his children. To one son more than others he gave additionally his outward form and semblance, Edward M. Bender, Cashier of the Gettysburg National Bank. Following the parental footsteps before he reached the half century mark in years he had been advanced to one of the most responsible positions in the town. After school days, he taught school, helped at farming, was secretary to Board of Poor Directors, at the age of 34 was elected Clerk of the Courts by the Democratic party. In 1896 he went into the Gettysburg National Bank as a clerk and in 1907 became cashier of the bank.

YINGLING-THOMAS.—Felix E. Yingling of near Gettysburg, recently of near New Chester, and Miss Anna Thomas, daughter of Mr. and Mrs. Wm. F. Thomas of near Pines Church, were united in marriage in a nuptial mass in the Church of the Immaculate Conception, New Oxford, Tuesday morning, by Rev. Father J. L. Shields.

The banns of matrimony between Albert Noel, son of Mr. and Mrs. Frank N. Noel, of Conewago township, and Miss Ruth Fink, daughter of Mr. and Mrs. David H. Fink, of New Oxford, have been published in the Church of the Immaculate Conception.

GRIFFITH-STUCKY.—Miss Marie Augusta Stucky, daughter of Mr. Marie Stucky, of Pittsburg, was married to Guy Myers Griffith at the church, parlor of Trinity Lutheran Church, on Wednesday, April 24th, the ceremony being performed by Rev. Dr. A. J. Turkle. The groom was attended by Robbin B. Wolf, formerly of Gettysburg. Mr. Griffith formerly resided at Gettysburg and is a nephew of Mrs. Belle Stewart. He will be recalled by our base ball fans as the second baseman of the Gettysburg Baseball team of 1896 and well remembered by our fans because Eddie Fink was in team, showing the great outplay abilities which have made him famous. Mr. and Mrs. Griffith will reside at 4738 Ben Venue Avenue in the Shadydale District of Pittsburg, in which city Mr. Griffith is connected with the Pittsburgh Agency of the Equitable Life Assurance Society.

### Lower Court Reversed.

The Superior Court in an opinion filed last week reversed the Court below in the case stated between Gettysburg School District vs. Cumberland Township School District. Children living in the township had attended the schools in the town under the recent law that where the home school was more than 1-1/2 miles distant school in an adjoining district could be attended. The pupils attended the town schools for nine months and the township contended that it could not be held for more than the township school term of seven months. The lower Court decided for the township. This decision is reversed and will permit the town to collect from township for the full time such scholars attended the schools. In the litigation Hon. D. P. McPherson represented the borough and J. L. Butt, Esq., the township.

## THE FULFILLMENT OF DAYS

### JOHN J. ADAMS OF CONEWAGO TOWNSHIP PASSES AWAY

**David C. Wentz Wellknown Citizen of Bonneauville Reached an age exceeding Four Score Years.**

JOHN J. ADAMS, a highly esteemed citizen of Conewago township, died at his home at Edgemoor on Monday of last week in his 54th year. He was a son of William Adams, an aged resident of Brushtown and followed blacksmithing all his life and was popular with everyone who knew him. For the past 11 years he has been working in the machine department of C. Moul & Co. in Hanover an efficient and faithful employee and on account of heart trouble was compelled to give up his work about a year ago and his health has been on the decline since. Mr. Adams served for some time on the school board of Conewago township and was a candidate for the Democratic nomination for sheriff of Adams county several years ago. He was a useful and influential citizen of the community in which he lived, and his death will be deplored by a large circle of friends and acquaintances. He is survived by a widow, who was Miss Elizabeth Livelsberger, of Conewago township, and an adopted daughter, Miss Mary Livelsberger Adams. Also by his aged father, a brother, Charles Adams of Westminster, and three sisters, Mrs. Harry Lippy of Midway, Mrs. Charles Klunk of Brushtown, and Mrs. Vincent Staub of near New Oxford. The funeral was on last Thursday, April 25, mass of requiem in Conewago Chapel by Rev. J. J. Smythe, assistant rector, celebrant. Interment in the chapel cemetery.

DAVID C. WENTZ died on Tuesday of last week, April 23, at his home in Bonneauville, in the 82nd year of his age. He was a prominent farmer of Mt. Pleasant township and was favorably known in the lower end of Adams county. During the past 45 years he has been a devoted member of St. Luke's Lutheran Church, serving on Building Committee 25 years ago when church was built. He is survived by his wife who was a daughter of Mr. and Mrs. Peter Bankert of Westminster, three sons, William of Gettysburg, Edgar K., Hanover, Martin D. Hampton, and seven daughters, Mrs. Mary J. Bupp of Gettysburg, Mrs. A. L. Wingert of near New Chester, Mrs. Emma E. Shaysmith of Shafter, Minn., Mrs. Ella M. Herman of Abbottstown, Mrs. Clara L. Little of Harrisburg, and Mrs. Cora A. McDannel and Mrs. Alverta A. Herman of near Gulden's Station. He is also survived by one brother, Noah C. Wentz of Westminster. Funeral took place last Friday, services and interment at Salem Church near Gulden's Station, Rev. Irvin M. Lau, of Littlestown, officiating.

MOSES MYERS, aged about 68 years, died at his home near Swift Run school house, Mt. Pleasant township, on Sunday, April 21. He is survived by a widow, who before marriage was a Miss Phillips; one son J. C. Myers, of New Oxford, and two daughters, Mrs. Walter Mummet, who lived with her parents, and Mrs. Fickes, of York Springs. Funeral on Wednesday, April 24th, services by Rev. C. W. Baker, interment in New Oxford cemetery.

Mrs. MARY HAMILTON, widow of the late Wm. R. Hamilton, died at her home in Scotland, Franklin county, last week, after many months of suffering. She was in her 63rd year. She was a devoted member of the Brethren Church. She is survived by the following children: Mrs. Ada Strine, Alice and Emily at home, Charles and Julia, Shippensburg, also by four brothers, Adam Rock of Waynesboro, Edward Rock of Franklin county, Charles A. Rock of Chambersburg, Daniel Rock of Fairfield.

WM. H. ASHBAUGH, a respected citizen of Emmitsburg, Md., died last Wednesday at the advanced age of 75 years. The funeral was held in the Methodist Church on Saturday. He is survived by three sons, William at home, Herbert M. and Charles B. of Emmitsburg, and by four daughters, Miss Mina at home, Mrs. William Rogers and Mrs. Robert Wentz of Emmitsburg, and Mrs. Marshall Leatherman of Thurmont, Md. Mr. Ashbaugh was the son of John H. Ashbaugh a native of Gettysburg, and Mrs. Martha Hann Ashbaugh, born in Carroll county, Md. He served for 35 years a deputy sheriff and county constable. He refused reappointment under the newly elected sheriff of his county on account of his rapidly failing health. In 1876 Mr. Ashbaugh was made town constable of Emmitsburg, which office he held in connection with his other duties for nineteen years when his health made it imperative for him to give up the town office. Ten days after his selection as town constable he was appointed county constable and in December of 1876 he was made deputy sheriff, serving the three offices for nineteen years.

CHARLES N. BROWN, son of Michael Brown, of near Dover, York county, and grandson of the late Peter Brown of East Berlin, died on Sunday, April 21, in St. Charles Hotel, Baltimore, aged 30 years. At first it was supposed to have been a case of suicide but the coroner of the city after investigation said death was accidental from chloroform, which he had been in the habit of using for some time. He leaves a wife.

## THE MAY MAGAZINES

### DEVELOPMENT OF WHITE COAL OR WATER POWER.

A Striking Story of the Fifth City of the World—Chicago.

#### When the Coal is All Used Up.

The great primary energizing power of the future, after the present deposits of coal have been exhausted, will be water. Millions of horse-power are available in the United States for electrical and industrial use, and the importance of conserving and regulating the use of this power has been already made a serious problem by the government. Something of what it means to bring into use the vast water power of the country will be made plain by a group of articles that will appear in the May SCRIBNER. There will be four of these, covering in a clear and most interesting way the significance of "Water and Power in Industry." No one who has ever read the story of some great engineering achievement will need to be told that here is a subject full of the romance of the life of the men who do things. The modern engineer is both explorer and discoverer. He blazes a way through the unknown wilderness and in his wake follows civilization. He builds a water-way hundreds of miles long commencing, maybe, up in the high mountains, and the desert is made to bloom.

It is not the mechanical side of such enterprises that appeals to the average reader—that may be left to the scientific journals and papers—but there is a human side, that has all of the fascination of fiction, and it is this that the authors of the four articles in this number bring out with full force.

#### The Fifth City of the World.

Just as the American West looms up as the most sudden improvisation in history, so Chicago stands out as the quickest and vastest growth in the West. Three short generations comprise the development of the fifth city of the world. Chicago is the centre of our great, new, middle region—the pulsing heart that beats forth and brings back those vital fluids of thought and action which make for a strong, stirring, and highly charged life.

Young in years, rich in energy, Chicago combines hopes still fresh with experiences accumulated through swift and incessant activity. The city possesses both the firm confidence that follows on signal accomplishment and the high expectations that are justified by a momentum which still continues unchecked. Chicago is qualified to lead—and leads. Vigor, confidence, and initiative have won for her the authoritative captainship of the great mid-region of our land.

#### The Keynote of the Home.

Advice worth dollars is given by Lou D. Stearns in "The Home Beautiful," an admirable, common-sense article in May SUBURBAN LIFE Magazine. Regarding the keynote of the successful home, she says: "Let, then, the keynote of her who is seeking to make the home a perfect home be comfort, convenience, usefulness. Do not fill it with useless furniture for mere show—articles that but take time and strength in order to be kept clean and free from dust. Far better, fewer furnishings, selected with a view to their real need, either in the line of use or comfort, with time for rest and recreation, that you may meet your family and your neighbor with a smile. What think you a man cares, when he comes home at night, tired and worried with the work and problems of the day, about a few rugs and vases, more or less, if he be met by a wife, dust-cloth in her hand and discontent in her heart, who is too tired to smile?"

#### A Fly-Catching Contest.

In the May WOMAN'S HOME COMPANION appears an interesting account of a great fly-catching contest held early last summer in Worcester, Mass. It contains a number of good suggestions which various communities might well put into operation this year. Following is an extract from the description: "Tuesday morning, June 20, 1911, the city of Worcester awoke to the fact that a campaign against flies was on, for the Worcester 'Telegram' had published this offer: 'The Telegram' herewith offers 153 prizes, amounting to \$650 in total, to those living in the city of Worcester, and less than twenty-one years of age, who bring to 'The Telegram' office, in accordance with the dates and hours given, the largest number of quarts or barrels of house-flies, dry and unmixed with other insects, and unmixed with any other foreign matter, as follows: Then the details of the contest were given. There were two hundred and thirty-two contestants, and sixteen million flies were caught. The winner of the first prize, a boy of twelve, got one million two hundred nineteen thousand and sixty-five flies, between the evening of June 22d and eight o'clock Thursday night, July 13th, when the contest closed.

"It was owing, probably, to Dr. Clifton F. Hodge of Clark University that such a war was waged just at this time. He has made a special study of flies, and is an authority on methods for their extermination. His maxim is, 'Don't chase the fly; let it catch it

self.' He advocates the use of traps attached to the garbage-can of the home, this being the headquarters of the fly. A hole about three inches in diameter should be made in the can-cover, and, at equal distances on the edge of this hole, three small holes should be bored in which the wires of the trap are put to hold it in place over the large hole. Leave the cover raised, and the flies enter the can, and, after gorging themselves, they seek the light coming through the screen of the fly-trap, on the top of the cover, and so are caught.

#### On the Lilliput River.

Hubert Footner's narrative of exploration, "New Rivers of the North," is continued in the May OUTING. Here is a typical incident:— Suddenly through the grass not ten feet from my partner, so near he could have reached over and cracked him with his paddle, stuck the head of a big brown bear. It looked as big as a butter-tub to us. His breath was almost in our faces. He regarded us with the most comical expression of astonishment on his stupid, good natured piz, and then with a blast of indignant protest he was gone. I delayed a second too long with the camera. I hoped to get him entire, or even a shoulder with the head, and I got nothing at all. For minutes afterwards we heard him wooding and crashing away through the bushes. Indeed Mr. Bear must have received the shock of his life.

#### Why Baseball Players Never Have Pockets in Their Shirts.

In the May AMERICAN Magazine, Hugo S. Fullerton writes an article full of interesting stories of freak plays that have won great baseball games. Following is one of the most remarkable stories: "Among the abnormal incidents that figured in the earlier history of the national game, perhaps none is as well known to old-timers as the one which happened to Cliff Carroll, on the St. Louis grounds, when he was a member of the famous 'Browns.' Perhaps you have wondered why baseball players have plain shirt fronts, and why so few players have breast pockets. Cliff Carroll is the reason. He was running forward to take a base hit on the first bound. The ball bounced crooked and hit him on the chest. He grabbed at the ball hastily and, as he clutched it, he shoved it down into the handkerchief pocket on his shirt front. The runner saw Carroll tugging and straining to tear the ball out of the pocket and instead of stopping at first, he sprinted onto second while Carroll, still trying to dislodge the ball, ran to second. The batter passed the fielder and turned for third with Carroll in pursuit. At third Carroll stopped and tried in vain to release the ball, and the runner kept on across the plate and scored the winning run. Chris von der Ahe, who at that time was at the head of the euphonic trio, Von der Ahe, Muckenfuss and Diddlebock, which operated the club, was furious and ordered all pockets removed from baseball shirts. Other teams followed and the pockets never have been restored, except by a few players who are willing to risk the repetition of the accident."

#### Plant a Tree.

He who plants a tree  
Plants a hope.  
Rootlets up through fibres blindly groping,  
Leaves unfold into horizons free.  
So man's life must climb  
From the clods of time  
Unto heavens sublime.  
Canst thou prophesy, thou little tree,  
What the glory of thy boughs shall be?  
He who plants a tree  
Plants a joy;  
Plants a comfort that will never cloy.  
Every day a fresh reality.  
Beautiful and strong:  
To whose shelter throng  
Creatures blithe with song.  
If thou couldst but know, thou happy tree,  
Of the bliss that shall inhabit thee.  
He who plants a tree  
He plants peace.  
Under its green curtain jargons cease,  
Leaf and arbutus murmur soothingly,  
Shadows soft with sleep  
Down tired eyelids creep,  
Balm of slumber deep.  
Never hast thou dreamed, thou blessed tree,  
Of the benediction thou shalt be.  
He who plants a tree  
He plants youth.  
Vigor won for centuries in sooth,  
Life of time that hints eternity!  
Boughs their strength uprear,  
New shoots every year  
On old growths appear.  
Thou shalt teach the ages, sturdy tree,  
Youth of soul is immortality.  
He who plants a tree  
He plants love;  
Tents of coolness, spreading out above,  
Wayfarers he may not live to see.  
Wafters he may not live to see.  
Gifts that grow are best,  
Hands that bless are best.  
Plant! Life does the rest!  
Heaven and earth help him who plants a tree,  
And his work its own reward shall be.  
LUCY LARCOM.

#### How Money is Being Made in Buttermilk.

Following is an extract from "Farm and Fireside": "One by one the various waste products of the farm have been utilized and put into a form having a market value, so it is not surprising to find persons making extra dollars and cents from the sale of buttermilk. An enterprising farmer's wife living near Yates Center, Kansas, is not only deriving a neat income from the sale of her butter, but she also sells the buttermilk to one of the principal hotels of the town for ten cents per gallon. "Good buttermilk is a wholesome and refreshing drink the year round, but its popularity in cities is greatest during the summer months, when it is in strong demand at five cents per glass. "The best buttermilk can be made only from the best and cleanest carefully ripened cream. "Nowhere can better buttermilk be produced than in the well-kept dairy of a well-managed farm.

"A twenty-pound churning of butter from average cream will make about eight gallons of buttermilk worth from eighty cents up, according to its quality and the kind of a contract one is able to make with local restaurants and hotels. The fresher the buttermilk, the better is its quality and the more refreshing it seems. To build up a reputation for good buttermilk at profitable prices, deliver it promptly in clean cans and as cold as possible."

#### The Lincoln Memorial.

No doubt the Lincoln Memorial Commission, which has decided to recommend to Congress the design for a memorial to Abraham Lincoln submitted by Henry Bacon, a New York architect, is competent to pass upon drawings or models for an architectural or sculptured monument to the great martyr. But the question of what the memorial shall be, whether it shall be one more monument in Washington, or a great national boulevard from the National Capital to Gettysburg, from the place where he served and suffered to the spot where he made the greatest of all his speeches, is not a matter for the decision of connoisseurs in art or architecture. It is for the people of the United States to decide through their representatives in Congress. In Harrisburg we did not need an expert to tell us that we should have filtered water. But after we decided to have it, we did need an expert to show us how to get the best for the least money. Whatever form the Lincoln memorial takes we shall favor its construction under the direction of the best expert that can be got—architect, artist or roadbuilder.—Harrisburg Patriot.

#### Will Rebuild Dam.

At a recent meeting of the Conewago Milling Co., plans were submitted by C. F. Moul, for the rebuilding of the dam at Waldheim, along the Big Conewago, which was partially destroyed by high waters and floating ice, several months ago. The contract for the reconstruction of the dam, was awarded to Mr. Moul, who contemplates starting on the work with a large force of hands early in May, and expects to finish it in about ten days. The reconstruction will be similar to that of the York Haven Power Plant, and will be made of concrete formation.

#### Mad Dog Rampage.

A dog supposed to be suffering from rabies recently ran through a section of Huntington and Latimore townships, biting dogs and other animals. The animal came down the Idaville road and bit a dog belonging to Webster Guise at Meal X Roads. Next day the animal appeared at Prosser's Mill in Latimore township, where he bit a hog belonging to Ed. Prosser. A crowd of men armed with shotguns followed the canine and killed him in the horse stable at the farm of John A. T. Zelle, where it had bitten a horse on the nose, chest and legs. Upon the advice of Dr. Moriarty of Gettysburg, the horse has been quarantined, and the head of the dog has been shipped to Philadelphia for examination.

#### Building Lot Sales.

John Raymond has sold a 50 foot lot of ground on Springs avenue to Mrs. Charles Emig, and has bought two 30 foot lots from Ernest Myers at corner of York and Fourth streets. P. M. Bruner has sold two lots, 76 feet, on south side of Hanover street to William Henry. Martin Winter has bought a lot fronting 165 feet on north side of West High street from R. E. Wible, Es., and has sold 50 feet of same to Joseph Galbraith. Martin Winter has also bought lot fronting 60 feet on north side of York street from estate of Samuel Little deceased.

#### Resigned Charge.

The Rev. Mr. Watkins, who was chosen by conference to serve as pastor of the Cross Roads M. E. church, comprising the churches of Gatchellville, Zion and Cross Roads, York county, refuses to serve the charge and has resigned. He was then reappointed to the charge he previously served at Littlestown.

#### POSITIVE PROOF.

Should Convince the Greatest Skeptic in Gettysburg.

Because it's the evidence of a Gettysburg citizen.

Testimony easily investigated, The strongest endorsement of merit.

The best proof. Read it:

Mrs. John Menchey, 46 Breckenridge St., Gettysburg, Pa., says: Doan's Kidney Pills are an effective kidney medicine. I can recommend them just as highly today as I did two years ago when I gave a public statement in their favor. For a long time I was in poor health and finally kidney trouble made its appearance. The pains in my back were so severe that I could hardly move and often I became very dizzy. I had chills and headaches and knew that something must be done. On the advice of a friend, I got a box of Doan's Kidney Pills at the Peoples Drug Store and to my gratification, their use restored me to good health. Doan's Kidney Pills are a blessing to kidney sufferers."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

## TRY THIS RICHMOND Suction Cleaner IN YOUR OWN HOME 5 DAYS FREE

We want every woman in America to have the opportunity to try the RICHMOND Suction Cleaner in her own home. And to show our unbounded confidence in the machine, we've decided to send it out on 5 days free trial.

Use it as much as you like. Clean your carpets and rugs, your upholstery, curtains, walls, ceilings, mattresses, pillows, etc.

See for yourself how it makes everything as bright and new as the day it was bought. See how it cleans without raising a particle of dust, how it makes after dusting unnecessary. Watch it get the dirt from under heavy furniture, behind radiators and from other inaccessible places.

Try the nine special attachments which we furnish with every machine—the hair-drying tool, the tools for cleaning clothes, book-shelves, etc.

## RICHMOND Suction Cleaner

Compare this easy, pleasant method of cleaning with the disagreeable backaching drudgery of brooms, mops and dusters.

Put the machine in every test you can think of.

Then at the end of 5 days if you are willing to part with the machine simply notify us and we'll send for it.

On the other hand if you wish to keep the machine you can pay for it on Easy Monthly Payments out of the actual money which the machine saves for you.

A liberal discount will be allowed those who pay cash.

The experience of most purchasers is that the RICHMOND Suction Cleaner pays for itself in from twelve to thirty months.

It pays for itself, first, because it does away with the annual or semi-annual tear ups called housecleaning (and housecleaning costs more than you think unless you have figured it out).

It pays for itself, second, because it doubles and triples the life of floorcoverings, hangings, furniture, wall paper, decorations, etc.

The RICHMOND Suction Cleaner weighs but 10 pounds. It can easily be carried upstairs, downstairs, anywhere without the least fatigue. It is a truly portable cleaner.

A RICHMOND is built with a view to long durability and we cover it with the broadest possible guarantee. It is simple in construction. There is nothing to wear out. There are no gears, no diaphragms, no valves. Nothing to jiggle loose. To operate, simply at-

tach to any electric lamp socket. Costs about one cent per hour to operate.

Surely you must see that the RICHMOND Suction Cleaner must give perfect service, perfect satisfaction, day after day, month after month, else we could not afford this offer.

But don't take our word for it. Find out for yourself. Try a machine at our risk. It doesn't make good—if it doesn't more than come up to your expectations, simply tell us to take it away. Could anything be more fair?

Remember it costs you nothing if you decide to keep the machine. All we ask is that \$1.00 be deposited with us as evidence of good faith and to keep away triflers. The \$1.00 will be refunded in case the machine is returned.

Prices Range from \$40.00 to \$85.00.

Mail the coupon and get full particulars. Do it now while you're thinking of it.

## Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man of women in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. ## MAKING IT EASY FOR HIM

Bringing Billiard Player, After Defeat, Meets With Something Very Like Satire.

He had always suggested that he was much too good a player to indulge in billiards with any member of the workmen's club. But one evening he did condescend to join in a game with some of the amateurs—just to show them how billiards could be played!

Alas! his style was bad and his play was worse. He missed the easiest of cannons, and when he tried to pot the red he only succeeded in cutting the cloth!

At the end of the game some kind of excuse was really necessary. His display had been the most wretched ever seen in the club.

"Of course," he explained, "this table is not full size—only about a quarter the proper size, in fact. I really can't play my usual game on it."

But the table, as it happened, was full size, and one of the workmen became annoyed.

"I understand, sir"—and the horny handed one nodded politely. "As a matter of fact, this isn't our billiard table—only one of the card tables. They've got the real billiard table in the next room, so we can't use it. They're playing a football match on it!"—London Answers.

### Too Suggestive.

"I see where the newspaper report of proceedings at a colored church conference states that a large collection was 'lifted.'"

"That is a word which should never have been used."

"No?"

"It starts a 'pusson' to thinking deep thoughts about a chicken roost."

### Its Urgent Need.

"What kind of labor bill does your party want?"

"One which will work."

Strange wishes are sometimes expressed by those at the point of death to ease their last moments, but few probably have been more strange than that of the son of Erin of whom the Rev. Dr. Floyd W. Tomkins told a short time ago in an afternoon speech: "Pat O'Shaunessy had been told by the doctor that he could live but a few hours," said Dr. Tomkins, "and his wife and assembled relatives and friends asked him whether there was one last wish he would like to have gratified before he died?" "There is," said Pat. "I'd like to hear the village band play once again."

Accordingly the village band gathered before Pat's house and discoursed airs for several hours. When at last it had played, "Say An Revolt, but Not Goodbye," and had taken its own departure, Mrs. O'Shaunessy, kneeling at her husband's bedside, asked "Can ye die aisy, Pat?" "Yes," replied Pat. "I can die aisy now. Hades has nothing worse than that."—Baltimore Sun.

### Pay as You Enter.

A young man wearing flashy clothes walked into the Planters' Hotel, and with a flourish of the pen registered as "Ira M. Smart, Smartville, Tenn." He asked to be assigned to a \$5 room. "I pay as I go," he said rather boastfully. "I regret, Mr. Smart," retorted Chief Clerk Bonnevillie, "that it is a rule of this house that guests without baggage must pay as they come."—St. Louis Post-Dispatch.

### Devoe Takes Less

### Gallons Always

Paint Devoe: It's the cheapest paint in the world; never mind the price; it may or may not be more. Less gallons will paint the house; and the paint will outwear anything.

Skip wear; you've got to wait, to find that out. It covers more; you haven't got to wait to find that out.

It's the cheapest of all; no matter about the price.

Mr. A. J. Smith, Littlestown, Pa., painted his house; his painter told him to get 13 1-2 gallons Devoe; had 4 1-2 left.

Mr. A. H. Rebert, same town, has lots of buildings; paints Devoe; pays 20 cents more a gallon for it; is glad to; says it's the cheapest there is.

That's how.

Cost less with all vital tests

The Ideal Solvent and Paint Thinner

Tur-mintine has the same boiling point, the same flash point, the same evaporating qualities as turpentine—

all a fraction of the cost.

Tur-mintine is better than benzine or naphtha in mechanical excellence and in perfect safety. It is also cheaper, because, although it costs more, it loses little from evaporation.

Tur-mintine is recommended.

## How to Plant a Tree.

Prof. H. A. Surface, Pennsylvania State Zoologist, of Harrisburg, has received appeals for directions for planting trees so they will grow. As he has planted over 20,000 trees, of which not more than one per cent. failed to live and thrive, the instructions by our State Zoologist will be found practical and useful for many persons. They are as follows:

To grow a good tree certain essential points should be observed. Among these are the following:

First. It should be a healthy, vigorous tree. As surely as a tree is sickly, feeble, infected with disease germs, or infested with insects at the time it is transplanted, this condition will be unfavorable to its growth, and it can not be expected that it will develop into a good tree without the removal of the pests assailing it.

Second. It should be a young tree rather than an old tree. A one-year old tree five feet tall will be much more sure to grow than a tree three or four years old of the same height. Also, a young tree is more easily transplanted with less shock to its system from the operation, and with less proportionate loss of roots than in an old tree.

Third. The roots should be cut back to some extent, but the length and size of those remaining should be proportionate to the size of the tree. For a one-year-old tree the roots should be six or eight inches in length, and if possible should extend in different directions. A deep root is not necessary for the growth or life of the tree, and in many cases can be cut off, thus saving the labor of digging a deep hole. Very fine hairy roots, which keep the earth from pressing close around the other roots, should be removed.

Fourth. The top should be cut back in proportion to the cutting back of the roots. This should be more severely than most persons believe. In most cases the tree will thrive better if its branches are cut back to very short spurs, and from two-thirds to three-fourths of its top cut off, than though the entire top should be permitted to remain at the time of transplanting.

Fifth. All broken and decayed or diseased parts should be cut away both in root and top, and if the top is unsymmetrical in its shape, it should be cut back to a fair degree of symmetry at this time if ever.

Sixth. The hole should be dug of such depth that when the tree is planted and tramped firmly in position it will not stand more than three inches deeper in the soil than it previously grew.

Seventh. If the tree is to be planted in a plowed or cultivated place the preparation should be very thorough, by deep plowing, about such as is done for good potato planting. If it is a clay subsoil or other impervious substrata it should be removed by digging to a depth of one or two feet more, and a good fertile top earth thrown in its place and firmly tramped into position when not wet enough to cake.

If the tree is to be planted in soil that is not cultivated, the earth should be loosened deeply over the spot about five or six feet in diameter. From the middle of this spot the subsoil should be removed, and replaced with good earth to such depth as will let the roots stand at the desired elevation.

Eighth. It is not enough in hard ground or sod merely to dig a small hole large enough to hold the roots of the tree. In such a case the soil around it becomes too dry, and the tree fails to thrive. The proper preparation of a good, broad, deep root bed is important in places where the ground is uncultivated, as along streets, in lawns, school yards, etc. In replacing the subsoil that was removed, use good top earth that is about the right moisture to be correct for planting seed, but not wet enough to pack into a cake when tramped. Then tramp it firmly in the hole before setting the tree upon it.

Ninth. Set the tree in position on fertile earth that is damp but not wet. Spread the roots in different directions, but have none looping around in the hole. Either dig the hole larger, or cut off the long root.

Tenth. Put over the roots about two inches of good, loose, fertile soil, and tramp it firmly to position. Firm this ground closely about all roots, and be sure that no space is left beneath the centre. If there are roots at different elevations gradually fill in the earth until each is covered and firmly separated, rather than crowd them all down and packing them in together at one time.

Next throw about one inch of loose earth over that which has been tramped, and over this scatter some well decayed manure or a few spoonfuls of commercial fertilizer or plant food of any kind.

Carefully avoid placing artificial plant food or manure in contact with the roots.

Eleventh. Fill the hole with earth loosely to within an inch or two of the surface of the ground. Do not tramp it.

Over this loose ground can be a mulch like straw held in place by boards, sticks, etc., or cultivate the top of the soil by shallow cultivation as soon as it is dry enough to do this properly after each rain. Do not use water in planting a tree unless the soil is dry, in which event it can be well soaked by pouring on several buckets of water after the roots are entirely covered. The tree should not be shaken after watering.

We have a comfortable hat for every head. The hat will be comfortable for the head, while the price will be comfortable for the pocket.

### Settling a Smart Lawyer.

A law case was proceeding in old Mexico and a mining expert was on the stand as a witness.

"Where were you born, sir?" inquired the lawyer.

"In England, sir."

"How many times have you crossed the Atlantic?"

"Twenty times."

The lawyer jumped up and addressed the judge: "Your honor, I impeach the veracity of this witness. He says he was born in England and has crossed the Atlantic 20 times. It would be impossible for him to have crossed the Atlantic that number of times and be on this side now. There is perjury here, your honor. His visits to this side would make odd numbers, and his visits to the other side even numbers, and yet he is here and has the audacity to swear he has crossed the Atlantic 20 times. I impeach him, your honor."

"How do you explain this, sir?" asked the judge sternly.

"Why," said the witness, "the last time I came to this country I came by way of the Pacific ocean."—Saturday Evening Post.

### The Mercantile Muse.

"Has Josh been writin' any more poetry?" asked Farmer Cornstossel.

"Yes," replied the young man's mother. "He says you mustn't be disappointed if he doesn't get much pay for it, 'cause it takes a reputation to make poetry profitable."

"Mebbe so. But I've got an 'idea' that poetry is like butter. It all looks so much alike till after you cut into it, an' there's so much imitation that people is afraid to take chances."

# BUILDING : LOT : SALE

**The Best Investment on Earth is the Earth Itself**  
**Real Estate is a Real Investment**

Real Estate is the safest investment that exists—it can't fail—it can't abscond—it can't make default—it can't float.

Real Estate in fact is not a risk, it is real and tangible and always has a definite value.

Nothing grows more surely nor to greater real value ultimately than growing real estate in suburb an additions.

"Anyone can make money, few can save it!" Make yourself one of the few—don't wait till you are rich to begin, if you do you will never begin—buy a lot today on the weekly payment plan.

Don't wait for a large capitol to begin with. Invest your spare dollars in a lot—the increase in value of first one will help you buy a second one.

"Young man buy Real Estate,—especially in the outlying suburbs,—your investments will make your old age comfortable."—RUSSEL SAGE.

"You cannot duplicate real estate—you can duplicate any other kind of security—Real Estate is the best investment for small savings"—EX-GOVERNOR FLOWER.

A prominent U. S. Senator said :—"Every man who has purchased and owns a home of his own, in which he lives is **Already a Success**. The only sure way to secure a home is to save a little money every week or month out of your income, judiciously invest such savings in your little suburban house site, then **Stick, Dig and Save** until the desired result is obtained."

## :: BUILDING LOT SALE ::

### Installment Plan at Cash Prices During Month of May

"Only one dollar a week on a 30 foot front lot, no cash advance payment! 50 thirty foot lots on York and Hanover streets, Gettysburg, a section building up rapidly and nicely, \$5.50 to \$6.00 per front foot, not one-tenth the price of a lot uptown, **it will pay to buy now and hold for advances.**

Save 15c a day out of the money spent uselessly, and buy a lot, later on build a home and stop paying rent.

Any man, any industrious boy, any economical girl with an income, can make the payments and own a lot of ground!"

The above is a copy of our advertisement away back in 1908—the prediction that "it would pay to buy now and hold for advances" has been more than realized—the lots offered then at \$5.50 and \$6.00 have since been resold by the then purchasers at \$9.00 and \$10 per front foot! In a number of instances the purchasers on installment plan did not even have the payments made in full, and were only paying 3 per cent. interest—

Since that time we have added a great many lots to our offers for sale and we are now offering

### The following lots

930 feet front	- Lincoln street--West	935 feet front	- N. Stratton street
1095 feet front	- Lincoln street--East	90 feet front	- - - Water street
3346 feet front	- Broadway street	914 feet front	- - - York street
343 feet front	- - Carlisle street	454 feet front	- - - Hanover street
1595 feet front	Carlisle street extended	1550 feet front	- East Middle street
1000 feet front	- Mummasburg street	180 feet front	- - - Fourth street
400 feet front	- - Harrisburg road	1000 feet front	- - - Fifth street

## More Than Two and One-half Mile Frontage For Sale with Another Mile or More to be Added Shortly

The industrial development of the town, especially at the East end—the promise of unusual business activity in 1913—surely will make an increased demand for homes, and therefore for building lots. Now is the time to buy, before prices are advanced, an increase in demand will be followed by an increase in prices, in building lots as in all other commodities for sale—**Hence buy now! today!**

### Installment Plan Prices Same as Cash Prices

Unusual features of our nearly \$40,000 of deferred payment plan sales are—that by far the larger portion of the sales were made to parties looking for good investments, and comparatively small portion to young men and women out of their weekly earnings with a view to owning their own homes—also a large proportion of the houses erected on these lots were erected on lots bought from the original purchasers at a good advance in prices.

**Only one dollar a week on a 30 foot front lot, no cash advance payment! No Taxes!**

Save 15 cents a day out of the money spent uselessly, and buy a lot, later on build a home and stop paying rent.

#### REPORT OF GRAND JURY

To the Honorable Court:  
We the Grand Jury, respectfully and unanimously report that we have passed on 78 indictments and found them all true bills. That we visited the jail and find that owing to the easy means of, and frequent escapes from the jail yard, the prisoners are not allowed the use or freedom of the jail yard. That they are confined within the cells and corridors, that the rear door being locked from the outside is a menace to the safety of the prisoners in case of fire. That the average is in a very bad condition, being unsanitary, and that the jury would recommend that there be a better sewer system installed, that the dwelling part of the jail is in good condition. That we visited the Alms-house in all its departments, and find everything in excellent condition, being well kept, cleanly and healthy, being a credit to the steward and keepers.

## DECEIVED BY THE SHADOWS

Discovery That Must Have Come as a Great Relief to the Young Lawyer.

One rainy day recently, a young lawyer, thinking he would like to take a little flyer in stocks, called at the office of his broker, who happened to be his most intimate friend. When he reached the office a new clerk whom he had never seen before told him that the broker was engaged, but would be at liberty in a few minutes. While sitting idly in the waiting room the young lawyer noticed something that made his eyes almost drop out. The gloom of the day necessitated the use of artificial light in the broker's private office. Silhouetted upon the ground glass partition between the two rooms the lawyer saw the shadows of a man and a woman. They were both seated, the broker at his desk and the woman beside and facing him. Every movement or so the lips of the shadows seemed to meet affectionately. Something about the profile of the woman struck the lawyer as strangely familiar. He rose instantly and threw open the door. Sure enough it was his wife, but she was sitting decorously in a chair two or three feet from the broker, but almost in line with him, engaged in an animated discussion.

Both looked up at the intrusion, but without the least embarrassment. "Why, hello, Tom!" exclaimed the broker. "Your wife here thinks she would like to speculate a little, too, and I've been using all my eloquence to dissuade her from it. What's the matter? Are you ill?"

"No," answered the lawyer, as he dropped into a chair with an air of great relief. "My eyes have been bothering me a good deal to-day. Do you know a good oculist?"

## BUILT TO DEFY EARTHQUAKES

Tree Homes of Mexico Made of Twigs and Grass Intertwoven With Branches.

In order to protect their homes from earthquakes many of the natives in the territory around Chilpancingo and other towns in the State of Guerrero, Mexico, live in trees. Some of these tree homes are of large size and are ingeniously constructed. Reeds and grasses are interwoven with the twigs and branches of the tree, much in the manner that a bird builds its nest.

The severest wind seldom looses these houses from the tree. Where the trees are large and stand closely together houses of two and three rooms are frequently built in their branches. These houses also afford protection from the "tigers" and other wild animals which are found in that region. In large numbers it is claimed that a "tiger" will not attack its prey unless it is upon the ground. The prime object of elevating these houses into the trees, however, is to keep them from being shaken down by the severe earthquakes which visit the Guerrero territory at frequent intervals.

The rocking of the earth gives the trees a swaying motion that does no damage to the houses. In some localities whole villages of these tree homes are to be seen. None of them suffered damage from the recent earthquakes which wrought such ruin to the buildings on the ground.

## She Was Not Engaged.

A book agent rapped at the door of a cottage occupied by an Irish widow, and, as she half opened the door, he inquired:

"Are you the lady of the house?"

"Of am, sorr," she replied.

"If you are not engaged I would like to see you a few minutes," remarked the agent as he started to work his way through the opening.

"Indeed, O'm not engaged, an' it's awnt the folks o' ye, an' entoir stranger, thawt kin be makin' love to a poor lone widow. Six weeks after she's buried her furst husband," was the emphatic response, as she slammed the door in his face.

Groaning for breath, the agent made for the street, reflecting upon the uncertain meaning of the English language.—Judge.

## Texas in Unique Position.

Except the original 13 states, whose independence was separately acknowledged by Great Britain, Texas is the only state which had separate existence as a nation before it became a state of the union. It is the only one of the admitted states, with the possible exception of Vermont and Maine, which by the conditions of its admission reserved state ownership for all the public lands within its limits. It is the only state which before entering the union had obtained the consent of congress to subdivide itself into a number of new states.

## Value of Tears.

Certain bacteriologists have been enlightening the public as to the value of tears. A good cry, they say, that washes the face with tears is an excellent antiseptic bath. Owing to the large percentage of sodium, chloride, or common salt, which they contain they sterilize the delicate mechanism of the eye and render harmless the bacilli which may have found lodgment on the cheeks.

At Five O'clock Tea. "And did you really go to Rome?" asked a guest.

"I really don't know, my dear," replied the hostess, just returned from her first trip abroad. "You see, my husband always bought the tickets."

## NOTICE OF PROPOSED ORDINANCE

The following ordinance was presented to the Town Council of the Borough of Gettysburg, Pa., at an adjourned meeting held March 12, 1912, and will come up for final action at a meeting of said Council to be held at the Council Chamber at 7 o'clock, p. m., on May 7, 1912, when and where all persons interested may appear.

## AN ORDINANCE.

Annexing lots of a section of land lying adjacent to the Western boundary of the Borough of Gettysburg.

Be it ordained by the Burgess and Town Council of the Borough of Gettysburg, and it is hereby ordained by authority of the same:

Whereas petition has been presented to the Town Council of the Borough of Gettysburg by a majority of the owners of certain lots lying adjacent to the Western boundary of said Borough, praying that said lots be annexed to the said Borough, therefore:

Section 1. That all those lots of a section of land lying and being adjacent to the Western boundary of the Borough of Gettysburg described as follows: Beginning at a point on the East side of road, erroneously called Seminary avenue, and at its intersection with West Middle Street in the said Borough of Gettysburg, thence through and along Fairfield Road South 72 1-2 degrees East 332 feet to a corner; thence along lands of George Engelbert and others, North 5 degrees East 1517 feet to a cut granite stone; thence along and through other lots of adjacent owners, North 18 1-4 degrees East 346.3 feet to corner; thence along lands of George Engelbert, South 63 1-4 degrees East 246.8 feet to corner with Borough line in so-called Seminary avenue; thence along said avenue and Borough line to place of beginning, and annexed and made part of the Borough of Gettysburg, subject to its jurisdiction and government.

Section 2. That this action of Town Council annexing the above described lots of a section of land adjacent to the Western boundary of the Borough of Gettysburg, is taken in pursuance of authority in it vested by the Acts of Assembly of the Commonwealth of Pennsylvania, and after petition asking for said annexation by a majority of the freehold owners of said lots of land aforesaid.

Ordained and enacted into an ordinance this 18th day of March, 1912.

HARRY A. TROUBLE, President.

C. B. KITZMILLER, Secretary.

## Are You Getting Ready to Build?

If so let us supply the building materials—Lumber, Roofing, Slate, Terra Cotta Tiles, Patent Wall Paper—Dealer also in COAL, WOOD and PREPARED COKE.

CONSIDER THE FOLLOWING ATTRACTIVE CEMENT SUGGESTIONS

Make a Water-Tight Wall that will be waterproof, practically indestructible and clean. Build it of concrete made with EDISON PORTLAND CEMENT which is the strongest and most economical cement you can use because it is much finer—10% finer—than any other. The fineness gives greater strength or you can use 1/10 less "Edison" Cement to get the same results as with other brands. Ask us for circular, "How to Mix and Use Edison Cement."

## POOR SPELLING TOO COMMON

Important Branch of Education Seems to Be Neglected in Schools of To-day.

Misspelling among the educated, or the supposedly educated, is apparently on the increase—thanks, it may be, to the passing of the "spelling bee" and to the crowding of the school curriculum with a multitude of studies unknown and undreamed of by our sturdy ancestors; and thanks also, perhaps, to the present movement for phonetic spelling, which the indolent are tempted to interpret as "spelling as you please."

In a statistical analysis of the spelling of his students, Prof. William B. Bailey of Yale makes some startling revelations. Of 171 essays written by seniors and juniors, only 25 were orthographically correct, while 14 per cent. contained each ten or more misspelled words, and one heterographic genius achieved 31 mistakes of this sort.

There were 443 misspellings in all, and six especially troublesome words were "separate," "superintendent," "governor," "committee," "comptroller," and "privilege," the last masquerading as privilege, privilege, privilege, privilege, privilege and privilege.

Certainly the later years of a course in a great university are not the occasion for remedying the deficiencies of elementary studies in the common schools. Ill fares the school, to latest fads a prey, where courses multiply and the three R's decay.—Dial.

## FOUND HIS LANDMARK GONE

Trouble That the Moving of a Trunk Made for Man Who Was Looking for His Room.

The hour one a. m., and all silent along the hall of this sleeping floor in a hotel save for the occasionally heard muffled note of a foghorn, the sound of somebody snoring in one of the rooms, and then presently the sound of somebody moving quietly, almost stealthily, along the long hall, and then under the breath, spoken in a low tone:

"Devil! Where's that trunk?" And I knew that trunk he was looking for well, for it had been a landmark for me too, standing in the hall outside of one of the rooms. My room was two doors beyond the trunk on the right, and always when I didn't need to look for my number—my room was two doors further on—and apparently he had been doing the same thing.

But now the trunk was gone, and in that long hall there was no landmark for him, and then I heard him moving about quietly, almost stealthily, in the dim light scanning the numbers on the doors, and then I heard him set a key in a lock and open a door and go in somewhere and shut the door behind him, and apparently he had hit the right room, for then again all was still save for the occasionally heard muffled note of that foghorn.

## Whistling Trees.

Among the curiosities of tree life is the sofa, or whistling tree of Nubia. When the winds blow over this tree it gives out flute-like sounds, playing away to the wilderness for hours at a time strange, weird melodies. It is the spirit of the dead singing among the branches, the natives say, but the scientific white man says that the sounds are due to a myriad of small holes which an insect bores in the spines of the branches.

The weeping tree of the Canary Islands is another arboreal freak. This tree, in the driest weather, will rain down showers from its leaves, and the natives gather up the water from the pool formed at the foot of the trunk and find it pure and fresh. The tree exudes the water from innumerable pores situated at the base of the leaves.

## Colors for Houses.

The safe colors for a house, besides red, are white, gray, yellow and brown. Yellow or gray, with white trimmings, suits many a plain pitched-roofed or square colonial house. Grays and browns are good for ugly, nondescript ones; the grays always being pleasanter on the yellow shades than on cold blue tones. White suggests the formal type again. It is a very good color for a country house, showing it up from a distance in fascinating glimpses, for it needs trees about it and flowers to sparkle against its walls. Such a house will be attractive when the leaves are gone from the trees, for the bare boughs will serve to soften the effect.—Scribner's Magazine.

## Got Out of His Dilemma.

A new "copper" just appointed and not long over, was put out in Brooklyn. He found a large dead dog at the corner of two streets. He took out his book and wrote: "This morning at 1:45 a. m., I found a dead dog at the corner of—" and he looked up to see what the streets were and discovered they were Keep and Kosciuszko.

He studied for a long time. Then he dragged the dog by the tail to the corner of Keep and Kent streets.

## WHEN SCOTS TALK.

Dr. Abernathy, the Scotch surgeon, was a man of few words, but he once met his match—in a woman. She called at his office in Edinburgh one day with a hand badly inflamed and swollen. The following dialogue, opened by the doctor, took place:

"Burn?"

"Bruise?"

"Poultice."

The next day the woman called and the dialogue was as follows:

"Better?"

"Worse."

"More poultice."

Two days later the woman made another call.

"Better?"

"Well. Fee?"

"Nothing. Most sensible woman I ever saw."—Young's Magazine.

I. M. P. Cunius—Saturday, and then he would have had a payday every day in the week.

## Permanent.

There are some things  
We can't forget;  
The cost of living  
Is with us yet.

## Quite the Contrary.

The man rushed into the bank in such a hurry that he was temporarily speechless.

"Do you wish to cash the check?" demanded the paying teller, politely. "No, I don't," snapped the man. "He got it out of me by a fraud. I don't want, no, sir, to cash the checks. I want to check the cash."

## His Quick Recovery.

"You made a quick recovery."

"Yes. You see, I employed two doctors."

"Two?"

"Sure. They spent nearly all their time quarrelling over my treatment and that gave me the chance I needed."

## COLD STORAGE AS RESERVOIR

Idea of the Large Field Occupied by Business Shown in Commodities Stored.

A somewhat intelligent idea of the large field occupied by the cold storage business can be gained from the following commodities stored in a Boston warehouse: Poultry; oysters, apples, berries, dates, evaporated apples, spinach, lettuce, squash, butter, flour, peanuts, bulbs, fruit juices, apple waste, preserves, maple sirup, skins, leeks, crabs, buckwheat, hams, sauerkraut, caviare, pickled fish, holly, pineapples, string beans, sponges, pickled meats, game, fresh meats, California fruits, prunes, citron, confectionery, potatoes, turnips, parsnips, cheese, cereals, beer, condensed milk, yarn, cider, salad dressing, maple sugar, furs, shrimp, lobsters, chestnuts, hops, sausage, casings, cherries, dried fish, smilax leaves, radishes, sweetbreads, candied fruits, smoked meats, fresh fish, oranges, cranberries, raisins, apricots, currants, beans, carrots, onions, horseradish, eggs, rice, ferns, canned goods, gutta percha, pickles, oleomargarine, oils, parsley, scallions, honey, cream, lard, anchovies, smoked fish, egg plant, laurel leaves, rhubarb, olive oil, wines, dried meats, fish for bait, lemons, grapes, figs, evaporated peaches, nuts, peas, cabbage, melons, provisions, macaroni, plants, sirups, asparagus, jellies, cauliflower, grape fruit, woolens, shallots, clams, bananas, mushrooms, olives and herbs.

## BIG MOUNTAIN OF MONEY

Philadelphia Sporting Man Couldn't Sleep With His Roll Under the Pillow.

Mrs. "Gus" Ruhlin, the eloquent and energetic convert to the suffragist cause, said in a recent address in Brooklyn:

"The sporting man, too, would be better off if his wife had a vote—if she had more say in affairs of state, and in home affairs as well.

"What wife, if she had more say, would approve of the senseless way the sporting man flaunts his money? What is the good of carrying a roll of twenties as big as a horse collar? Nobody but the sporting man dreams of doing such a thing, but he—"

Mrs. Ruhlin made a hopeless gesture. Then she went on:

"There's a Philadelphia sporting man who is famous for the roll he always carries. My husband said to him one night:

"I suppose, in strange hotels, you always put your roll under your pillow, eh?"

"No; oh, no," said the Philadelphia. "I couldn't sleep with my head so high."

## Bees in Traveler's Pocket.

L. F. Crathorne of Kanopolis, Kan., is the first man in several moons to come through the depot carrying a whole hive of real live bees. In addition to the several hundred bees in a portable hive Mr. Crathorne carried an extra queen bee in his pocket, enclosed in a small contrivance of wire and wood that also contained a piece of candy and two ordinary working bees. The working bees were there to feed the candy to the queen. Queen bees won't feed themselves, Mr. Crathorne said. The only things they do are lay eggs, lead revolutions and get killed.

Mr. Crathorne said he had no difficulty handling bees without gloves of netting and that the small swelling under his right eye represented the only sting he received last night after sorting out three hives at twilight, the time when bees are most irritable.—Kansas City Star.

## Education Outside of Books.

Actual travel, and the seeing of rare objects in nature and art, are gradually taking the place of book study," declares a prominent official of the New York Metropolitan Museum of Art, in pointing out the important part which that institution plays in the school life of the community. The Brooklyn Institute bulletins tell the same story. In fact, there is not today a museum of any importance, either of art or of science, in all the country, that is not offering inducements to teachers to make use of its collections. The teachers are not slow in taking the opportunity, and the galleries become a place of recreation and painless instruction for the children. It is the tendency of the age, in all directions.

## Boy Fought an Eagle.

Elmer Peterson, fifteen years old, and living four miles west of Little Falls, Minn., had a hard battle with a large eagle and was saved from serious injury only by the timely arrival of a brother.

The boy had shot the bird, which was in a tree. The eagle fell to the ground and immediately went at the boy with its talons. The bird's claws became fastened in the boy's clothing and the lad was unable to free himself. Elmer was badly frightened and his strength was giving out when his brother arrived and killed the eagle with a club.

The bird measured five feet across the wings.

## Nothing to Do With the Once.

"I suppose you can give references," said the woman.

"I can. Everybody I ever worked for says I sure know how to cook."

"But as to your character?"

"I never let my character interfere with my cooking, mum, so I don't say that's any business of yours."

# "Brighten Up" Week

## Sherwin-Williams PAINTS and VARNISHES

**T**HIS is "Brighten-Up" week—the time for a genuine, old-fashioned house-cleaning—made easier by modern appliances and labor saving helps. It is not only the time for cleaning and scrubbing and polishing; but for brightening up the home with paints and varnishes and making it permanently cheerful and cozy. Its surprising what a lot you can do with a can of paint, varnish or enamel, a brush and a little energy. That old floor, your soiled and scratched woodwork, the dingy cupboard—all these can be made clean and new, if you use the proper Brighten-Up Finish.

And don't neglect the outside of your home. Painting not only makes it look fresh and neat, but protects the wood and metal from decay and rust, lengthening the life of the building. Of course, the important thing is choosing the paint which looks best, wears, the longest, is the easiest to apply, and affords the greatest protection for the money. Poor paint is dear at any price. We recommend Sherwin-Williams Paints and Varnishes because they are scientifically made from the purest materials. Regular colors, price \$2.00 per gallon—worth more.

### Brighten-up Finishes

No matter what you want to redecorate, we have a Brighten-Up Finish made specially for the purpose. Easy to apply—only the work of a few minutes. Full directions given. Look down this list, then call for a color card.

For refinishing floors in natural wood effects, use S-W Floor-lac. It is a permanent stain and a tough floor varnish combined. Easy to put on; dries quickly. Good for furniture, too. Quarts 70 cents, pints 40 cents.

For cupboards, buy a can of S-W Family Paint and a small brush. Paint the shelves spotless white or some serviceable color and make them sweet and clean. Twenty-seven colors to choose from. S-W Family Paint wears well and may be scrubbed. Also suitable for chairs, woodwork, doors. Pints 30 cents, regular colors.

### Commonwealth Barn Paint

Commonwealth Barn Red, a bright, handsome red, for painting barns, corn cribs, fences, etc., works very easily, covers well and is more economical to use than short measure barn paints. Commonwealth Barn Red is always put up full measure. 5 gal. cans \$1.00 per gal. 1 gal. cans, \$1.10.

### Fencing Materials

Do you expect to put up a fence this year? If so, let us suggest wire fencing. It looks well and is easily kept up. It wears splendidly and is not expensive. There's a difference in different wire fencing, however. Some is good and some is not. We keep the good kind, and if you want to know that you get the best, come to us. Staples to put it up, hammers to drive the staples.

### Paint Brushes

Good brushes are as necessary to a good job of painting as good paint—and a good painter.

We sell good brushes—the kind to use on first-class work. No loose bristles, no defective parts, no cause for complaint whatever.

### Miscellaneous

We sell good hardware, window-glass, putty, sponges, tools and everything you will need for your spring house-cleaning. We want to give service and have made our prices as low as is possible for reliable merchandise.

### Farm Machinery Department

Deering and McCormick Binders and Mowers; Horse Rakes and Hay Tedders; Oliver and Syracuse Plows; Check Row and Double Row Corn Planters and Single Planters; Double Cultivators, Single Cultivators, and Garden Plows of all kinds; Perry and Lever Spring Harrows; 50, 60 and 70-tooth Spike Harrows.

### Wagons

We have Studebaker and Weber Wagons. Spring Wagons and One-horse Wagons.

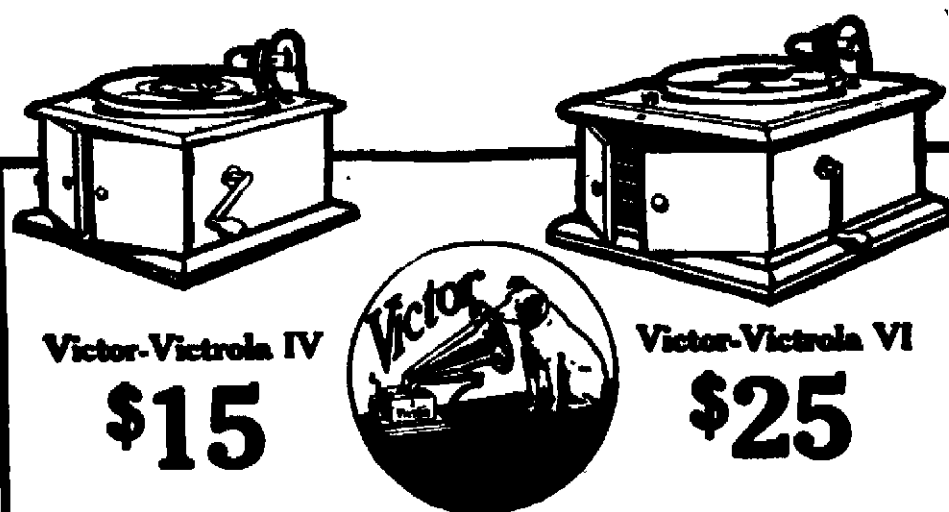

Large and small Wheelbarrows; Grain Drills, Superior, Crown and Pennsylvania.

### Harness Department

Single and Double Harness, and all kinds of Heavy Plow Gears, Collars in all sizes and various prices.

### Garden Tools

Taking care of the garden is lots of fun if you have the proper tools. We sell spades, rakes, trowels and everything you need. Also well-known brands of lawn mowers which will make your lawn the pride of the neighborhood. Don't always borrow your neighbor's—buy one yourself—it lasts for years.

Victor-Victrola IV

\$15

Victor-Victrola VI

\$25

## Victor-Victrola

The prices are certainly attractive enough to make everybody want a Victor-Victrola.

And when you hear the instruments you won't be without one in your home.

Come in and select yours today.

Other styles of the Victor-Victrola \$40 to \$200. Victors \$10 to \$100. Easy terms, if desired.

### Large Stock of Dinner and Toilet Ware
